

Hello

Here are the case studies for GCSE Geography. I need to finish adding to tourism as we are changing them as we go. There will be a power point with information on all these case studies coming out for you to use after the half term. Hope it is helpful

**Water on the land:**

River Tees for a long profile of a river.

High Force (on the River Tees) for a waterfall

Boscastle Floods – causes, effects and management to reduce it.

Bangladesh Floods – causes, effects and management to reduce it.

Kielder water- transfer scheme

**Living World:**

Wyre Forest or Epping Forest for a deciduous woodland

Sahara Desert

Outback in Australia desert

Malaysian Rainforest

**Weather and Climate:**

Hurricane Katrina

Cyclone Nargis

UK examples of an anticyclone

Impacts of global warming within the UK and abroad

Extreme weather- UK heatwave and Boscastle Floods

**Population:**

Managing a population- China- focused on births

Managing a population- Kerala, India- focused on education and health care

Ageing population- UK

Migration within the EU- Poland to UK

Migration from outside the EU- Refugees to UK
