

Dear Parents,

During the weeks **commencing 20th March**, year 8 pupils will be taking Science examinations. Please find below, a recommended revision list, together with page references for our online text book (Kerboodle) and student revision guide. I would recommend still using a mixture of the two resources even if you have a revision guide.

To log into Kerboodle use the information below:

Username – first initial and surname (e.g. *lpigott*)

Password – first initial and surname (e.g. *lpigott*) – unless you have already changed it

Institution code – pv1

Topic	Chapter	Kerboodle page references	Revision guide page references
Biology			
Structure & function of body systems	Chapter 2 (in the activate 1 book)	26 - 39	8 - 9
Adaptation & inheritance	Chapter 3 (in the activate 2 book)	42 - 57	28 - 31
Chemistry			
Reactions	Chapter 3 (in the activate 1 book)	86 - 99	42 - 43, 56
The periodic table	Chapter 1 (in the activate 2 book)	60 - 71	44 - 45
Metals and acids	Chapter 3 (in the activate 2 book)	86 - 103	46 - 47
Physics			
Light	Chapter 3 (in the activate 1 book)	136 - 147	106 - 107
Space	Chapter 4 (in the activate 1 book)	148 - 157	90 - 91

I would advise all pupils to construct a revision timetable and to prepare thoroughly for the examinations. There are some really good end of topic questions at the end of each chapter in Kerboodle that I would recommend.

Thank you for your continuing support,

Yours sincerely,

Lynette Pigott

(Head of Science and Technology Faculty)
