

Dear Parents,

During the week commencing 3rd April, year 7 pupils will be taking a Science examination. Please find below, a recommended revision list, together with page references for our online text book (Kerboodle) and student revision guide. I would recommend still using a mixture of the two resources even if you have a revision guide.

To log into Kerboodle use the information below:

Username – first initial and surname (*e.g. lpigott*)

Password – first initial and surname (*e.g. lpigott*) – unless you have already changed it

Institution code – pv1

Topic	Kerboodle Chapter in the Activate 1 book	Kerboodle page references	Collins Revision guide page references
Biology			
Cells	B1, Chapter 1	14 - 25	4 – 5
Structure & function of body systems	B1, Chapter 2	26 - 39	8 - 9
Chemistry			
Particles and their behaviour	C1, Chapter 1	60 - 75	52 - 53
Elements, atoms & compounds	C1, Chapter 2	76 - 85	44 - 45
Acids and alkalis	C1, Chapter 4	100 - 109	58 - 59
Physics			
Forces	P1, Chapter 1	112 - 123	76 - 83
Sound	P1, Chapter 2	124 - 135	94 - 95
Light	P1, Chapter 3	136 - 147	106 - 107

I would advise all pupils to construct a revision timetable and to prepare thoroughly for the examinations. There are some really good end of topic questions at the end of each chapter in Kerboodle that I would recommend.

Thank you for your continuing support,

Yours sincerely,

Lynette Pigott

(Head of Science and Technology Faculty)
